NEGOTIATIONS FOR THE ACCESSION OF PORTUGAL

**Twenty-eighth report on the examination
of Community secondary legislation**

**Supplement to the previous reports concerning
acts relating to the following fields:**

**APPROXIMATION OF LAWS
ENVIRONMENT AND CONSUMER PROTECTION
RULES OF COMPETITION
REGIONAL POLICY
EURATOM, RESEARCH, ENERGY
EXTERNAL RELATIONS (EEC AND ECSC)**

(Commission Communication to the Council)

I.

In continuation of the systematic examination of Community secondary legislation undertaken with the Portuguese Delegation in accordance with the brief received from the Council, the Commission has carried out an interim supplementary examination of the acts adopted by the institutions of the European Communities in the following fields: approximation of laws; environment and consumer protection; rules of competition; regional policy; Euratom, research and energy; external relations (EEC and ECSC acts).

The supplementary examination covered general acts which had been adopted and/or published since the previous examinations undertaken in each of the fields in question and which were in force on 1 May 1984.

As in the previous sector examinations, the Portuguese Delegation was also informed of all the acts adopted by the Council or the Commission in the fields in question which are not part of Community secondary legislation proper and are not legally binding on the Member States or their nationals (such as recommendations, resolutions and other internal decisions) but are of interest for the development or direction of Community activities and as such form part of the acquis communautaire. With these acts there is of course no problem of adaptation.

Subject to the remarks made below, the results of the supplementary examination are set out in the two annexes to this report:

Annex I lists the new acts examined which do not require technical adaptations to be specified in the act of accession.

Annex II gives details of the technical adaptations which need to be made to certain acts and which will have to be specified in the accession instruments.

II.

In the course of this interim supplementary examination it was found that certain acts which were in force at the time of the previous examinations of each of the fields in question - and which were accordingly included in the examinations - have since lapsed or have been amended by new acts adopted subsequently.

Any amendments which consequently need to be made to the technical adaptations set out in the conclusions of the reports embodying the results of the previous examinations are given in Annex II to this report in the form of corrections or additions to be made to the said previous results.

An examination of the acts in question gives rise to the following additional remarks:

1. In the list of committees in respect of which provision will have to be made for complete renewal of membership upon Portugal's accession.

(a) the reference to the "Advisory Committee on Industrial Research and Development", established by Decision 78/636/EEC, should be deleted, as this Decision has been repealed by Decision 84/128/EEC;

(b) the following committees should be added:

- Committee for the European Development of Science and Technology, established by Commission Decision 82/835/EEC of 6 December 1982 (OJ L 350, 10.12.1982, p.45)
- Advisory Committee on Community Policy regarding Forestry and Forest-based Industries, established by Commission Decision 83/247/EEC of 11 May 1983 (OJ L 137, 26.5.1983, p.31)
- Industrial Research and Development Advisory Committee (IRDAC), established by Commission Decision 84/128/EEC of 29 February 1984 (OJ L 66, 8.3.1984, p.30).

2. At the time of the examination of the Second Council Directive (84/5/EEC) of 30 December 1983 on the approximation of the laws of the Member States relating to insurance against civil liability in respect of the use of motor vehicles, the Portuguese Delegation asked that Portugal be allowed to benefit from the derogations provided for Greece and Ireland pursuant to paragraphs 3(a) (concerning the time limit for increasing guarantees) and 4(b) (concerning the time limit regarding compensation by the relevant body for damage to property and the time limit for fixing the maximum amount of excess) of Article 5 of the Directive in question.

As these derogations have already been granted to countries which are Member States, the Commission feels there would be no grounds for refusing to extend them to Portugal on identical terms. Consequently, the relevant adaptation is listed among the adaptations which should be made to certain acts relating to the approximation of laws.

3. Subject to the above comments, the examination of the new acts in these fields did not reveal any special problems which would have to be resolved in the framework of the substantive negotiations.
