(submitted to the Council by the Commission)

COM(81) 805 final

EXPLANATORY NOTE

Council Directive of 11 November 1980 laying down conditions designed to render and keep the territory of the Community free from classical swine fever required that Member States, which were not declared officially free of classical swine fever, must submit an eradication plan for implementation before 31 December 1981. The Commission, in accordance with Article 3, paragraph 2 of the above mentioned Directive, established the list of those Member States which were officially free of swine fever and those Member States which must submit a plan for its eradication. Of the Member States which must submit a plan Greece and Italy have requested a postponement of up to one year for the submission and implementation of their plans in accordance with Article 12 of the above mentioned Directive because of certain technical difficulties. This proposal is to fulfill these requests.
