COMMISSION OF THE EUROPEAN COMMUNITIES

COM(73) 2194 final

Brussels, 20 December 1973

Estimate of supply of and demand for beef and veal
in the processing industry for the period from
1 January to 31 March 1974

Estimate of supply of and demand for beef and veal
in the processing industry for the period from
1 January to 31 March 1974

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 805/68 of 27 June 1968 on the common organisation of the market in beef and veal (1), as last amended by Regulation (EEC) No 187/73 (2), and in particular Article 14 (2) thereof;

Whereas the tonnage appearing in this estimate is in accordance with the Opinion of the Management Committee for Beef and Veal;

HAS ADOPTED THIS ESTIMATE :

On 10 December 1973 the Council adopted, pursuant to Article 14 (2) of Regulation (EEC) No 805/68, an estimate of supply of and demand for beef and veal in the processing industry for the period 1 January to 31 December 1974. ⁽³⁾ This was based on an estimate of Community supplies of meat of the quality and type of cut suitable for industrial use -called "meat for processing"- and of industrial needs, including the needs of industries producing the preserved meats listed in Article 1 (c) of the same Regulation and which do not contain characteristic components other than beef and jelly.

Demand in the industry for meat for processing can be assessed by reference to the quantities of fresh and frozen meat processed quarterly.

.../...

(1) O.J. No L 148, 28.6.1968, p. 24.

(2) O.J. No L 25, 30.1.1973, p. 23.

(3) O.J. No L 356, 27.12.1973

Community supplies to meat for processing can be estimated on the basis of the quantities of Community-produced and imported fresh, chilled and frozen meat normally used for this purpose.

To find the deficit to be covered by imports of frozen meat effected under the special arrangements defined in Article 14 (3) b) of Regulation (EEC) No 805/68 during the first quarter of 1974; the overall needs of industries manufacturing the preserved meats referred to in paragraph 2 of that Article must be deducted.

Conclusion

In view of the above, the deficit for the period from 1 January to 31 March 1974 of frozen meat for processing is estimated at 60.000 tons (unboned meat).
100 kg of boned meat is equivalent to 130 kg of unboned meat.

Done at Brussels, 20 December 1973
