5. Sharing of aviation security information, research/studies and analysis
 - 5.1. Without prejudice to their applicable rules, the Parties shall establish working arrangements specifying what information and analyses can be shared with one another on the basis of information gathered by their respective audit and inspection programmes, as well as the sharing mechanism to guarantee the confidentiality of information received from the other Party in accordance with Article 6 of the MOC.
 - 5.2. The Parties shall collaborate in aviation security activities through the exchange of relevant and appropriate data, research, studies, information and documentation, and by facilitating mutual participation in meetings.

The Parties shall cooperate closely in assisting EU States and other States as deemed necessary in improving their level of effective implementation of the critical elements of State security oversight systems and their level of compliance with ICAO SARPs. Such cooperation shall include but not be limited to the exchange of information, facilitating dialogue between the Parties concerned, and the coordination of any technical assistance activities.
9. Regional cooperation
 - 9.1. The Parties shall give priority to activities aimed at accelerating implementation of SARPs where the regional approach offers opportunities for improved cost-efficiency, oversight and/or standardisation processes.
10. Expert assistance
